

LINCOLN KAYAKS

The Seguin

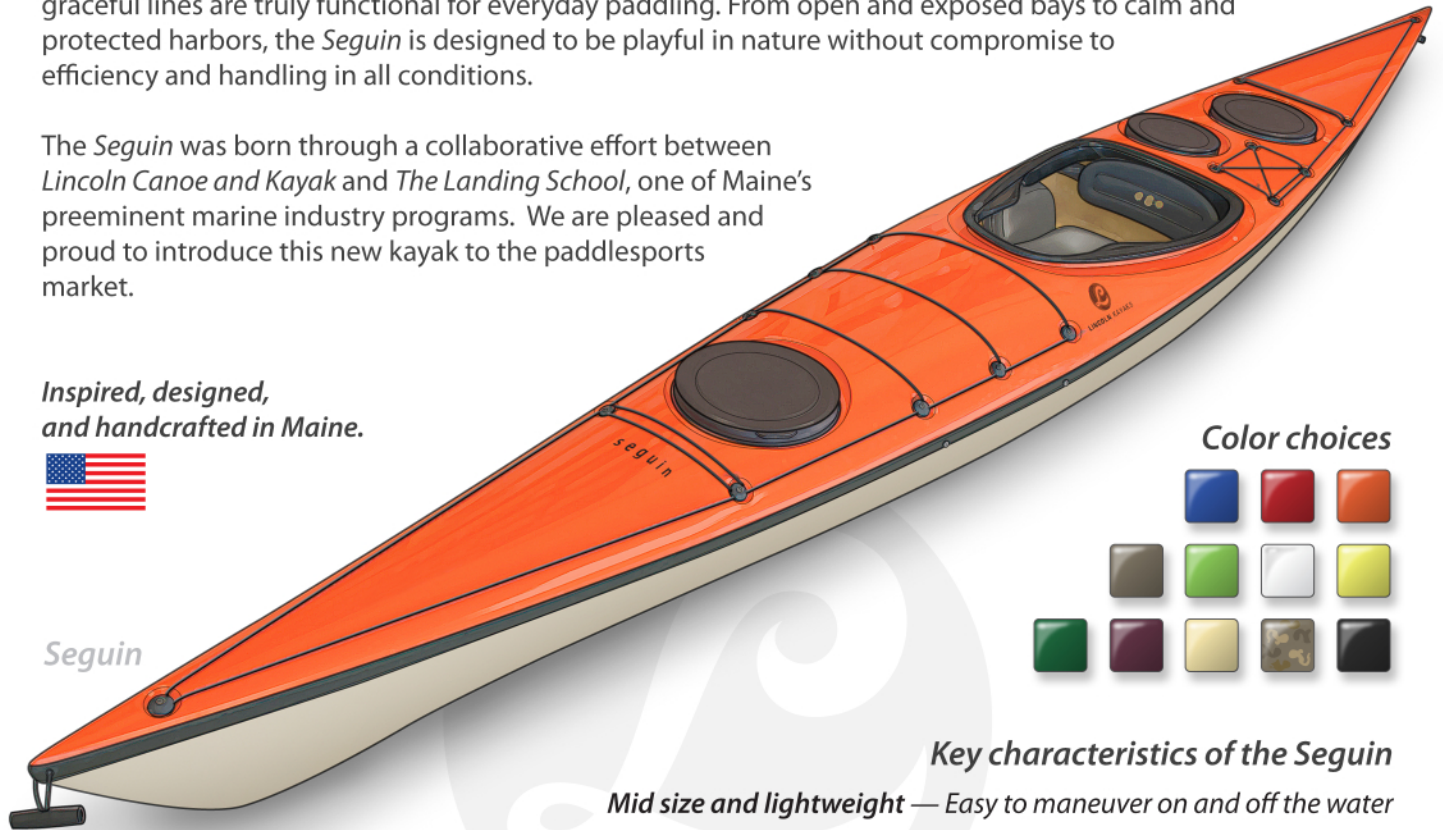

Simply put, Lincoln's newest kayak symbolizes the beauty and exhilaration that comes from exploring our local waterways. Inspired through 25 years of paddling Maine's unforgettable coastline, its precise and graceful lines are truly functional for everyday paddling. From open and exposed bays to calm and protected harbors, the *Seguin* is designed to be playful in nature without compromise to efficiency and handling in all conditions.

The *Seguin* was born through a collaborative effort between *Lincoln Canoe and Kayak* and *The Landing School*, one of Maine's preeminent marine industry programs. We are pleased and proud to introduce this new kayak to the paddlesports market.

*Inspired, designed,
and handcrafted in Maine.*

Seguin

Color choices

Key characteristics of the Seguin

Mid size and lightweight — Easy to maneuver on and off the water

Full/soft chine and moderate rocker — Exceptional stability and maneuverability on a lean

Slight V hull — An efficient waterline length that tracks well and is great for day trips and short overnights
